digital specifications

GENERAL AD REQUIREMENTS (APPLY TO ALL ADS):

- **File Format**: Jpg, gif, png, HTML5 (must be 3rd party hosted), 3rd party hosted
- **Interest-Based Advertising (IBA)**: Include IBA self-regulation controls for ads using behavioral targeting (5 KB max file size)
- **Audio**: Must be user-initiated. To allow for audio initiation in videos without player controls, a control may be included for user to initiate audio.
- **Hotspot**: Not to exceed 1/4 size of ad. Initiated when cursor rests on hotspot for at least 1 sec. Must NOT initiate audio.
- **Defining ad space**: Ad unit content must be clearly distinguishable from normal webpage content (ad unit must have clearly defined borders and not be confused with normal page content).
- **Max CPU**: Ad not to exceed 30% CPU usage during host-initiated execution.
- **Submission lead time**: Minimum load time for ad file submission is 6 days before campaign start.
- **Max number of host-initiated file requests**: Ad not to exceed 15 file requests during initial file load and host-initiated subload. Unlimited file requests allowed after user-interaction.
- **File weight calculation**: All files for the ad (.html, .js, .css, images, etc.) must be included as part of the maximum file weight calculation for all file load limits. Shared libraries are also included as part of the file weight calculation unless otherwise exempted. File weights are calculated after files have been compressed into gzip format. You can use this site to check if your creative is within our specs guidelines [http://html5.iabtechlab.com/needauth?redir](http://html5.iabtechlab.com/needauth?redir).

- **Host-initiated subload**: where allowed, additional files may load one second after the browser domContentLoadedEventEnd event. The ad should be able to “listen” for the browser domContentLoadedEventEnd event before subsequent files beyond the initial max file size may be loaded.
- **User-initiated file size**: Ads that allow additional file size for host-initiated subload also allow for unlimited file load after user-initiated interaction. User initiation is the willful act of a user to engage with an ad. Users may interact by clicking or tapping the ad, and/or rolling over an ad (or a portion of an ad).

Earned Rates:
Earned rates are given to advertisers based on advertising frequency within a 12-month period. The earned rate is determined by the number of insertions. A spread counts as two insertions. Full pages and fractional pages count as single insertions. Demographic ads will count toward a company’s final earned frequency on a pro-rated basis (e.g., a 4-page unit going to 50% of circulation = 2X). Insertions from a parent company and its subsidiaries are combined to determine earned rate. Advertisers are short-rated or rebated based on year end final level earned. The minimum number of insertions at each level must be met within the 2019 calendar or fiscal year.

Corporate Discount Program:
Effective with January 1, 2019 insertion orders, the Corporate Discount program is based on an advertiser’s 2018 net advertising, including digital spending, plus non-CME promotional project expenditures in all of the UBM Medica media. Please contact your account manager for more information and your discount rate.

ADVERTISING INCENTIVE DISCOUNTS

Product Incentive Program (PIP Continuity Discount):
Run a minimum of three product insertions in Contemporary OB/GYN and save. The more insertions, the more you save. Free pages count toward earned frequency but do not count toward the corporate discount program.

<thead>
<tr>

</tbody>

Product Incentive Program Criteria:

i) The minimum number of insertions at each level must be met within a calendar or fiscal year.

ii) For simplicity, and maximum savings, the Product Incentive Program percent savings will be taken off the product’s gross insertion expenditure. The PIP discount should be added to your corporation’s Corporate Discount Program earned discount, and the resulting total percentage is taken off of the gross insertion cost.

iii) You can project what Product Incentive Program level you will achieve for the year and begin to realize savings immediately. At your earliest convenience, please notify your Contemporary OB/GYN account manager of your product’s planned Product Incentive Program participation level. If the product does not meet the projected level, or exceeds its projected level, that product will be short rated or rebated accordingly. If the product is pulled off the market due to an FDA ruling, the accrued savings will stand, and the company will not be penalized for loss of product continuity.

iv) All of a product’s indications work together to attain a product’s insertion level.

ABC (Add a Book Combo):
When you advertise in Contemporary OB/GYN and run the same product in the same month in another UBM Medica medical publication(s) (i.e., Contemporary Pediatrics, Dermatology Times, Drug Topics, Managed Healthcare Executive, Medical Economics, Psychiatric Times, ONCOLOGY, and Urology Times), you will receive a discount dependent upon the number of publications you run in. The more titles you choose, the deeper the discount.

2 publication buy = 10% 3 publication buy = 15% 4+ publication buy = 20%

Note: This discount applies to full run ads only and may not be used when advertising in Ophthalmology Times, Ophthalmology Times Europe, Optometry Times, Dental Products Report and The Aesthetics Guide. This discount cannot be used in combination with the Product Incentive Plan (PIP) but may be used with the Corporate Discount Program. This discount applies to the nine UBM Medica publications shown only and may be used in any combination. For products with different size ad units, the discount will be calculated based on the mutual number of pages. For example, if 6 pages run in one publication and 4 pages run in the other, under this program, the discount will be applied to the 4 matching pages in each magazine. Free runs do not count toward the discount.

Launch Incentive:
Run in four consecutive issues and the 5th issue is free. This discount applies to new products, new indications and new formulations of existing products. Free ads must be the same size or smaller, and pre-launch ads do not count toward the launch discount. The Launch discount and the PIP program discount cannot be taken at the same time -- PIP goes into effect after the 5th issue. Free pages count toward earned frequency but do not count toward the corporate discount program.
